## Paxton Charities Online

Paxton Charities Online will allow :-

- Access from anywhere via a web browser
- Access from any platform, Windows, Mac, Android, etc
- Access from office, home, on the move, overseas.
- Access by your auditor, accountant or examiner

All the facilities and functionality of Paxton Charities Accounting are now available on the cloud by using Paxton Charities Online. This enables you to access the software from any device on any platform using a web browser. Unlike some other web applications, Paxton Charities Online has all the facilities of the PC version including full reporting.

Many charities have more than one person requiring access to the accounts on computer. Frequently, there is a different person responsible for booking expenditures to the person entering income, billings, donations, etc. Very often these people are in differing locations, sometimes at home. Paxton Charities Online provides a solution to this problem by allowing access when required from any location from any device having a web browser.

Also, many charities have sub-branches at different locations but need one central consolidated set of accounts. Again, Paxton Charities Online provides the solution to this issue without the need to transfer the database from one location to another on non-networked systems.

Paxton Charities Online is a hosted system supplied on a subscription basis. For further information or to purchase the Paxton Charities Online please call Paxton on 01234 216666 or email [sales@paxtoncharities.co.uk](mailto:sales@paxtoncharities.co.uk)
